**HIGH QUALITY, AFFORDABLE  
WEBSITE HOSTING**

Providing professional grade, world class hosting services with personal local service. I deal with the technical stuff while you focus on your business.

You can register and have full access to your own domain name through the interface linked from my website, or you can have me take care of registering and maintaining your domain name for you.

Your hosting package (Silver and above) comes with SiteBuilder software: choose from over 100 templates for building your own website and making updates as often as you wish.

You can have your website hosted at one of multiple first-class hosting facilities located in the US, in the UK, or in Asia. These facilities have up-to-date computers, extremely fast and dependable connections to the Internet, and all have battery backup and power generators. Cloud hosting is also offered.

Check the website for hosting packages and related pricing and also to register your domain name.

**RATES**

Domain names - \$29.00 per year.

Hosting packages - check the website.

**YOUR LOCAL  
SMALL BUSINESS DIRECTORY**

This online directory is dedicated to small businesses with 50 or fewer employees.

A listing in Small Business Big World is designed to target potential customers right in your own town. And since the directory has individual pages for various business categories in towns worldwide, it provides a valuable resource for small businesses all over the world.

While your listing is on a specific page for your business category in your town, it will also be listed on a similarly categorized page with other businesses worldwide. This not only helps you to be found in multiple ways, it gives your website higher priority in Internet searches. Most search engines give preference to websites which are linked from pages containing relevant content to the business being searched for. This is exactly what you're getting with a listing in Small Business Big World.

Small Business Big World is listed in many other Internet directories and can be found in most of the major search engines.

**RATES**

One-year listing - \$88.00

Two-year listing - \$168.00

Check the website for current special offers.

**TECHNICAL HOUSE CALLS**

**HOME ELECTRONICS  
MADE SIMPLE**

**APPLE COMPUTERS & PCS,  
TVs, SURROUND SOUND &  
INTERNET PHONE SERVICE**

My job is to help you get the most from your investment in home electronics, whether I'm installing new computer software, connecting your TV to your stereo, or helping you take advantage of lower priced Internet phone services.

I'll take the time to explain your home electronics options in everyday language, letting you know the pros and cons of any decision you may be contemplating.

If you already have electronic equipment that you can't seem to figure out, or is giving you trouble, I'll come by your home and help simplify your life.

**RATES**

First consultation - up to one hour - \$70.00

Each additional hour - prorated in half-hour increments - \$80.00

Travel time, outside the City of Manhattan - \$60.00 per hour with a one-hour minimum.
